

The James Braid Golfing Society

JBGS Forum Meeting Agenda – Thursday 23 June 2022

- 1 The rationale for forming, and the function of the Committee.
Given by Barrie and appreciated and accepted by the members present.
- 2 Information on the events of 2022, past, present and future.
As above.
- 3 Costings of current events and the effect on entry fees in the future.
The general feeling was that it is inevitable that they will go up. It was suggested that the Community Board was used by members for their views on fees next year.
- 4 Disappointment in the use of the Community Board - which was requested by members at a previous forum meeting.
Members were informed that it is not possible to send an alert about a posting, so the use of a What's App was suggested - using out going messages only. It was agreed to discuss this at the next Zoom Committee meeting.
- 5 How to resolve problems for some members with emails from admin at the Braid. (Do we have a techy in the room who might be able to help?)
No techy around. However, the problem has been solved by yours truly but with on-going costs resulting – for discussion as an agenda item, as above.
- 6 A request to update the website with personal information, in particular, change of email address and handicaps. Or ask Alison to do it! But don't just tell your mates and wonder why emails don't arrive!
Understood and taken on board by members.
- 7 And another request – changing golf plans at the last minute (without a good reason such as clubs/clothes lost in transit) makes life difficult and does not show the JBGS in a good light when trying to get deals to play the courses.
Members noted this request.
- 8 Any other business.
Members suggested using a 'reply by' date when information is requested. This idea was gratefully received by yours truly and has already been used successfully.
